- **Methods:** Reporting & KPI tracking, root-cause analysis, data validation, A/B testing

Experience

Accendra Health

Operations Specialist · Remote, CA · January 2025 – July 2026

- Analyzed operational workflows across 10 branch locations to identify process bottlenecks and service gaps, directly optimizing logistics and staffing strategies.
- Triaged recurring account and system issues by conducting root-cause analysis, documenting findings to facilitate resolution by engineering teams.
- Maintained and enhanced weekly Power BI dashboards tracking sales volume and fulfillment KPIs, ensuring leadership had consistent visibility into operational performance.

Snap

Snap Lens Academy Scholar – AR Product Intern · Santa Monica, CA · June 2024 – August 2024

- Built and iterated on AR lenses reaching 100M+ plays, utilizing engagement metrics to optimize product performance and drive user growth.
- Executed data-driven research by mining interaction trends across contemporary social platforms, translating raw behavioral signals into actionable product strategy.

Calmars (DTC E-Commerce)

Customer Success & Operations Specialist · Costa Mesa, CA · January 2022 – March 2024

- Developed weekly SQL reporting on repeat contacts and fulfillment exceptions, providing stakeholders with a consistent, data-driven view of operational bottlenecks.
- Standardized key metric definitions and established data validation processes to ensure reporting accuracy as company data volume scaled.
- Analyzed customer feedback trends from Salesforce escalations, translating recurring pain points into actionable recommendations for process improvement.
